About this Item

- **Salt** **Alacranes** is extracted from groundwater more than a million years old, in some of the most arid and sterile environments in the planet, located in the Alacran Desert of Chile.
- **Salt** **Alacranes** and **Alacranes** is much the same as regular sea salt.
- The grains contain 75% less Sodium as well as iron or minerals that are beneficial for human health.
- **UNIQUE, UNREFINED** **Alacranes Salt** is unique, unrefined white salt from subterranean brine springs of Alacran Desert. It's a great all purpose salt to keep on hand!
- **Groundwater** is extracted from a depth of 80 to 100 meters up to enormous evaporator pools located right in the desert, where the sun and the wind turn homogeneous salt granules of the highest quality.
